

**Government of the District of Columbia
Board of Zoning Adjustment**

Application No. 16757 of Jemal's Lofts LLC, pursuant to 11 DCMR § 3103.2 for variances from the floor area ratio requirements (subsection 1707.4), residential recreation space requirements (section 773), and ground floor preferred use requirements (subsection 1703.3), and pursuant to subsection 3104.1 a special exception from the roof structure provisions under subsection 411.11 to allow the construction of an apartment house with ground floor retail in a DD/C-4 District at premises 910-916 F Street, N.W. (Square 377, Lots 828, 829, 847 and 848).

HEARING DATE: September 20, 2001

DECISION DATE: September 20, 2001 (Bench Decision)

SUMMARY ORDER

SELF-CERTIFICATION

The zoning relief requested in this case was self-certified, pursuant to 11 DCMR § 3113.2.

The Board provided proper and timely notice of public hearing on this application by publication in the D.C. Register, and by mail to Advisory Neighborhood Commission (ANC) 2C, and to the owners of property within 200 feet of the site. The application was also referred to the Office of Planning for review and report.

The site of this application is located within the jurisdiction of ANC 2C. ANC 2C, did not participate in this case. The Office of Planning report recommended that the application be approved.

As directed by 11 DCMR § 3119.2, the Board required the applicant to satisfy the burden of proving the elements that are necessary to establish the case for a variance and special exception pursuant to 11 DCMR §§ 3103.2 and 3104.1 respectively. No person or entity appearing as a party to this case testified in opposition to the application. Accordingly, a decision by the Board to grant this application would not be adverse to any party.

Based upon the record before the Board and having given great weight to the Office of Planning report filed in this case, the Board concludes that the applicant

has met the burden of proving under 11 DCMR §§ 3103.2, 773, 1707.4, and 1703.3 that there exists an exceptional or extraordinary situation or condition related to the property that creates a practical difficulty for the owner in complying with the Zoning Regulations, and that the relief can be granted without substantial detriment to the public good and without substantially impairing the intent, purpose, and integrity of the zone plan as embodied in the Zoning Regulations and Map. The Board further concludes that the applicant met the burden of proof under 11 DCMR §§ 3104.1 and 411.11 that the granting of the requested relief will be in harmony with the general purpose and intent of the Zoning Regulations and Map, and will not tend to affect adversely the use of neighboring property. It is therefore **ORDERED** that this application be **GRANTED, SUBJECT** to the following **CONDITION**:

1. The Applicant may modify the design of the building subject to approval under D.C. Law 2-144, provided that those changes do not diminish the amount of residential recreation space provided and the roof structure setback on the west side.

Pursuant to 11 DCMR 3101.6, the Board has determined to waive the requirement of 11 DCMR 3125.3 that the order of the Board be accompanied by findings of fact and conclusions of law. The waiver will not prejudice the rights of any party, and is appropriate in this case.

VOTE: **4-0-1** (David W. Levy, Geoffrey H. Griffis, Sheila Cross Reid, and Peter G. May to Approve, Anne M. Renshaw not present, not voting).
