MODIFICATION DECISION DATE:	February 8, 2011

SUMMARY ORDER ON MODIFICATION

Background

On January 10, 2006, the Board of Zoning Adjustment (“Board” or “BZA”) granted the application of Jemal’s Citadel LLC (“Applicant”) for area variances from the rear yard requirements under § 774, the nonconforming structure requirements of § 2001.1, the loading requirements under §§ 2201.1 and 2201.6, to allow the redevelopment of an existing building in a mixed-use project that would include a grocery store, retail or service uses, and general offices in the Reed-Cooke/C-2-B District at 1631 Kalorama Road, N.W. (Square 2572, Lot 36). (Exhibit 100.)

On July 11, 2006, the Board denied a Motion for Reconsideration of the final order filed by the Reed Cooke Neighborhood Association. (Exhibit 104.)

The Applicant completed the renovations pursuant to the approval order and Harris-Teeter grocery store has successfully operated in the building since April 23, 2008. The office and retail spaces, however, have remained vacant as a result of the collapsed economy.

PAGE NO. 2

Waiver of the Two-Year Time Limit

On January 10, 2011, the Applicant filed with the Board a request for a minor modification of Condition No. 15 in BZA Order No. 17395. (Exhibit 107.) BZA Order No. 17395 became effective on June 15, 2006, and BZA Order No. 17395-A became effective on December 14, 2006. Because this modification request was filed more than two years after the most recent effective date, the Applicant requested a waiver from 11 DCMR § 3129.3.

The Board accepted the Applicant's stated reasons for the delay. The Applicant completed the project in compliance with the approved plans. However, because of the continuing weak economy, the office space has remained vacant for the past several years. The Applicant could not have known within the original two-year timeframe that the office space could not be leased. Waiver of the two-year provision would allow the Applicant to market the space for residential use without compromising the purpose and intent of the original BZA order. By consensus, the Board waived the two-year requirement for the Applicant to file a modification request.

The Modification

The proposed minor modification will allow the Applicant to convert the existing first floor space from office use to residential use and to construct new residential loft space in the project. The grocery store and retail space would remain unchanged.

The residential portion of the building would contain 33,470 square feet of gross floor area, or a density of 0.79 floor area ratio ("FAR"). The overall density of the building would be approximately 1.96 FAR, of which 1.17 would be devoted to commercial uses. The proposed density falls below the maximum 3.5 FAR permitted in the RC/C-2-B District, of which no more than 1.5 FAR can be devoted to commercial uses.

Normally, the Applicant would not need to seek approval from the BZA to establish the proposed residential use because residential uses are permitted as a matter of right in the RC/C-2-B District. However, the plans approved in the original application identified a portion of the upper (first) floor as "unoccupiable" and Condition No. 15 of BZA Order No. 17395 specifically prevents the Applicant from converting the portion of the first floor labeled "unoccupiable" to *any* useable space. The record reflects that the intent of this condition was to prevent the remainder of the floor space above the Harris Teeter grocery store (identified as the first floor on the drawings) from being converted to office use and thereby exceeding the permitted 1.5 FAR for nonresidential uses in the C-2-B District. The actual language of Condition No. 15 was much broader, however, in that the Applicant is precluded from converting that area to *any* useable space, including residential uses for which no BZA relief would have been required if it had been proposed initially. The Applicant stated that the proposed conversion of the space to residential use will otherwise comply with the Zoning Regulations with respect to parking, loading, lot occupancy and FAR. (Exhibit 107.)

BZA APPLICATION NO. 17395-B
PAGE NO. 3

The Office of Planning (“OP”) submitted a report in support of the request for minor modification and endorsed the conversion of the space to residential use. OP noted that in its original report dated November 22, 2005, OP expressed concerns that the residual area within the dome could be easily converted to office space and thereby increase the commercial FAR without a permit. OP therefore recommended and the BZA approved a condition to preclude the use of this space. At the time, OP did not raise concerns about using the space for residential purposes. With respect to the Applicant’s current request to modify Condition No. 15, OP noted that no changes would be made to the approved variances for height, lot occupancy, rear yard and loading, and therefore recommended approval. (Exhibit 108.)

The site of this application is located within the jurisdiction of Advisory Neighborhood Commission (“ANC”) 1C. A copy of the minor modification application was served on ANC 1C on January 10, 2011. ANC 1C did not participate in this application. A copy of the application was also served that day on the Reed Cooke Neighborhood Association, which was a party in the initial application. The Reed Cooke Neighborhood Association likewise did not participate in this current application. Accordingly, a decision by the Board to grant this minor modification application would not be adverse to any party.

Based upon the record before the Board and having given great weight to the OP report, the Board concludes that the Applicant has met the burden of proof for minor modification of approval set forth in 11 DCMR § 3129. The Board finds that the minor modification application does not change the material facts upon which the Board based its original approval of the application.

Pursuant to 11 DCMR § 3100.5, the Board has determined to waive the requirement of 11 DCMR § 3125.3 that the order of the Board be accompanied by findings of fact and conclusions of law. It is therefore **ORDERED** that this application be **GRANTED, pursuant to the plans in Exhibit 107, Exhibit C, and CONDITION NO. 15 is hereby amended, as follows:**

15. The area under the dome identified as “unoccupiable” may only be converted to residential space.
