

GOVERNMENT OF THE DISTRICT OF COLUMBIA
Board of Zoning Adjustment

Application No. 17579 of Keith Catanzano, pursuant to 11 DCMR § 3103.2, for a variance from the lot occupancy requirements under section 403, to allow the construction of an accessory structure serving a single-family row dwelling in the R-4 District at premises 1235 Independence Avenue, S.E. (Square 1015, Lot 144).

Note: The Board amended this self-certified application at the public hearing changing the originally sought special exception relief under section 223, to variance relief from the lot occupancy requirements under section 403.

HEARING DATE: March 20, 2007
DECISION DATE: March 20, 2007 (Bench Decision)

SUMMARY ORDER

SELF-CERTIFIED

The zoning relief requested in this case was self-certified, pursuant to 11 DCMR § 3113.2.

The Board provided proper and timely notice of the public hearing on this application, by publication in the D.C. Register, and by mail to Advisory Neighborhood Commission (ANC) 6B, the Office of Planning (OP) and to owners of property within 200 feet of the site. The site of the application is located within the jurisdiction of ANC 6B. The ANC submitted a letter in support of the application. The ANC letter supported the publicly noticed relief for a special exception. However, in public testimony it was revealed that at the ANC meeting, the ANC also discussed the relief for the area variance. The OP submitted a report in opposition to the application. The Capitol Hill Restoration Society submitted a letter in support of the application.

As directed by 11 DCMR § 3119.2, the Board required the applicant to satisfy the burden of proving the elements that are necessary to establish the case for a variance pursuant to 11 DCMR §§ 3103.2 and 403. The Board agreed with the OP that the application should be heard under the area variance test and not under the special exception provisions of section 223. The Board disagreed with OP's conclusion that the Application does not meet the test for a variance. The Board, in brief, found that the Applicant proved the

practical difficulty test. The Board based its conclusion, in part, on the dwelling's absence of a basement level that creates a unique circumstance specific to this property compared to neighboring properties.

Based upon the record before the Board and having given great weight to the OP and ANC reports filed in this case, the Board concludes that the applicant has met the burden of proving under 11 DCMR §§ 3103.2 and 403, that there exists an exceptional or extraordinary situation or condition related to the property that creates a practical difficulty for the owner in complying with the Zoning Regulations, and that the relief can be granted without substantial detriment to the public good and without substantially impairing the intent, purpose, and integrity of the zone plan as embodied in the Zoning Regulations and Map.

Pursuant to 11 DCMR § 3101.6, the Board has determined to waive the requirement of 11 DCMR § 3125.3, that the order of the Board be accompanied by findings of fact and conclusions of law. It is therefore **ORDERED** that this application (pursuant to Exhibit 10 – Architectural Plans) be **GRANTED**.

VOTE: 3-0-2 (Curtis L. Etherly, Jr., Michael G. Turnbull and John A. Mann II to Approve, Geoffrey H. Griffis and Ruthanne G. Miller not present, not voting).
