**HEARING DATE:** March 20, 2012  
**DECISION DATE:** March 20, 2012 (Bench Decision)

**SUMMARY ORDER**

**SELF-CERTIFIED**

The zoning relief requested in this case was self-certified, pursuant to 11 DCMR § 3113.2. (Exhibit 6.)

The Board of Zoning Adjustment (“Board” or “BZA”) provided proper and timely notice of the public hearing on this application by publication in the *D.C. Register* and by mail to the Applicant, Advisory Neighborhood Commission (“ANC”) 6C, and to all owners of property within 200 feet of the property that is the subject of this application. The subject property is located within the jurisdiction of ANC 6C, which is automatically a party to this application. ANC 6C submitted a report, dated December 19, 2011, in support of the application. The ANC indicated that at a duly noticed and regularly scheduled public meeting on December 15, 2011, with a quorum of six out of nine Commissioners present, the ANC voted unanimously (6:0) to support the application. (Exhibit 26.)

The Office of Planning (“OP”) submitted a timely report recommending approval of two of the three area variances requested as well as the special exception request, to allow the adaptive reuse and expansion of an existing historic structure in the DD/C-2-C Zone into a hotel and/or residential building. Specifically, OP recommended approval of the requests for special exception relief under § 411.11 and variance relief from the minimum rear yard requirements under § 774.1 and the maximum lot occupancy requirements under § 772.1. OP stated that it could not recommend approval for a variance from minimum off-street parking relief under

§2101.1 due to a lack of information.<sup>1</sup> (Exhibit 29.) The District's Department of Transportation ("DDOT") submitted a report recommending approval of the Applicant's request for a variance from the off-street parking requirements under § 2101.1. In its report DDOT recommended that the Applicant provide pre-loaded SmartTrip cards to new residents and/or hotel visitors and encourage the use of nearby public transportation options. (Exhibit 28.)

Variance Relief:

As directed by 11 DCMR § 3119.2, the Board has required the Applicant to satisfy the burden of proving the elements that are necessary to establish the case, pursuant to § 3103.2, for area variances from §§ 772, 774, and 2101.1 of the Zoning Regulations. No parties appeared at the public hearing in opposition to this application. Accordingly, a decision by the Board to grant this application would not be adverse to any party.

Based upon the record before the Board and having given great weight to the OP and ANC reports filed in this case, the Board concludes that in seeking area variances from the requirements of §§ 772, 774, and 2101.1, the Applicant has met the burden of proving under 11 DCMR § 3103.2, that there exists an exceptional or extraordinary situation or condition related to the property that creates a practical difficulty for the owner in complying with the Zoning Regulations, and that the relief can be granted without substantial detriment to the public good and without substantially impairing the intent, purpose, and integrity of the zone plan as embodied in the Zoning Regulations and Map.

Special Exception

As directed by 11 DCMR § 3119.2, the Board required the Applicant to satisfy the burden of proving the elements that are necessary to establish the case for a special exception under § 3104.1 from the strict application of the requirements for a roof structure with enclosing walls of unequal heights under § 411.11. No parties appeared at the public hearing in opposition to the application. Accordingly, a decision by the Board to grant this application would not be adverse to any party.

The Board concludes that the Applicant has met the burden of proof for special exception relief, pursuant to 11 DCMR §§ 3104.1 and 411.11, that the requested relief can be granted as being in harmony with the general purpose and intent of the Zoning Regulations and Map. The Board further concludes that granting the requested relief will not tend to affect adversely the use of neighboring property in accordance with the Zoning Regulations and Map. ❖

<sup>1</sup> On March 20, 2012, the Applicant submitted supplemental information to respond to OP's concerns (Exhibit 30) as well as revised plans that removed a previously proposed parking level. (Exhibit 31.) At the hearing, the Board granted expert witness status to Sacha Rosen for architecture and design. The Board approved the application subject to the revised plans in Exhibit 31.

Pursuant to 11 DCMR § 3100.5, the Board has determined to waive the requirements of 11 DCMR § 3125.3, that the order of the Board be accompanied by findings of fact and conclusions of law. The waiver will not prejudice the rights of any party and is appropriate in this case. It is therefore **ORDERED** that the application is hereby **GRANTED, pursuant to Revised Plans – Exhibit 31.**
