**SUMMARY ORDER**

**SELF-CERTIFIED**

The zoning relief requested in this case was self-certified, pursuant to 11 DCMR § 3113.2.

The Board of Zoning Adjustment (“Board”) provided proper and timely notice of the public hearing on this application by publication in the *D.C. Register*, and by mail to Advisory Neighborhood Commission (“ANC”) 5D and to owners of property within 200 feet of the site. The site of this application is located within the jurisdiction of ANC 5D, which is automatically a party to this application. The ANC submitted a letter in support of the application. The Office of Planning (“OP”) submitted a report in support of the application. The Department of Transportation had no objection to the application.

Variance

As directed by 11 DCMR § 3119.2, the Board has required the Applicant to satisfy the burden of proving the elements that are necessary to establish the case, pursuant to § 3103.2, for a variance from §§ 210.1 and 2117.8. No parties appeared at the public hearing in opposition to this application. Accordingly, a decision by the Board to grant this application would not be adverse to any party.

**BZA APPLICATION NO. 18785**  
**PAGE NO. 2**

Based upon the record before the Board and having given great weight to the OP and ANC reports filed in this case, the Board concludes that in seeking a variance from §§ 2101.1 and 2117.8, the applicant has met the burden of proving under 11 DCMR § 3103.2, that there exists an exceptional or extraordinary situation or condition related to the property that creates a practical difficulty for the owner in complying with the Zoning Regulations, and that the relief can be granted without substantial detriment to the public good and without substantially impairing the intent, purpose, and integrity of the zone plan as embodied in the Zoning Regulations and Map.

As directed by 11 DCMR § 3119.2, the Board has required the Applicant to satisfy the burden of proving the elements that are necessary to establish the case pursuant to § 3104.1, for a special exception under sections 411.11 and 770.6. No parties appeared at the public hearing in opposition to this application. Accordingly, a decision by the Board to grant this application would not be adverse to any party.

The Board concludes that the Applicant has met the burden of proof, pursuant to 11 DCMR §§ 3104.1, 411.11 and 770.6, that the requested relief can be granted as being in harmony with the general purpose and intent of the Zoning Regulations and Map. The Board further concludes that granting the requested relief will not tend to affect adversely the use of neighboring property in accordance with the Zoning Regulations and Map.

Pursuant to 11 DCMR § 3100.5, the Board has determined to waive the requirement of 11 DCMR § 3125.3, that the order of the Board be accompanied by findings of fact and conclusions of law. It is therefore **ORDERED** that this application (pursuant to Exhibit 55C - Plans) is hereby **GRANTED** with the following **CONDITIONS**:

1. For a five year period, the Applicant shall offer all new tenants either an annual Capital Bikeshare or car share membership;
2. The Applicant shall install an electronic transportation information screen in the lobby that would show real time arrival/availability for nearby trains, buses, carshare, and Bikeshare or, in the alternate, the Applicant shall provide notice to the tenants of applicable cell phone applications or other means of obtaining this same real-time multi-transit information; and,
3. The Applicant shall work with the District Department of Transportation to identify an appropriate loading area adjacent to the site.
