The Interactive Zoning Information System (IZIS) is a web-based system that allows online case filing, processing, and management of Zoning Commission (ZC) and Board of Zoning Adjustment (BZA) cases. This is the initial implementation of IZIS, so not all case types can be filed using this online system. Please follow the links below to find out which case types can be filed using this system.

INITIATING, MANAGING, OR PARTICIPATING IN A CASE

This is a simplified process for initiating a case before either the ZC or the BZA, managing your existing case, or participating in an existing case that you did not file.

For the initial implementation of IZIS, certain case types that come before the ZC or the BZA must be filed electronically. Therefore, you will be prompted to log into the secure section of IZIS in order to proceed. Other types of relief, which eventually will be handled electronically, must be sought by visiting the Office of Zoning (DCOZ) in person. For those cases, you will find an expandable list of relevant forms with associated explanations in the links below.
